

Lake Tanganyika is the largest rift lake in Africa and the second-largest lake by volume in the world. It is the deepest lake in Africa and holds the greatest volume of fresh water, accounting for 16% of the world's available fresh water!

Zambia, Tanzania, Burundi and Congo surround the lake.

We love Mishembe Bay. No hope of driving to such a place! We travelled there by boat.

Our Pilot was **Hitler**, who is also one of the church leaders in this area.

Two local congregations met together at Mishembe Bay that Sunday.

And they loved your gifts of Bibles and hymnbooks in their local language, and lots of Sunday School material for the kids.
