With the reference to the above, as an evangelist I took part in many activities at the local church as well as outside the District.

At the local church, I took part in preaching, Bible study, leading the songs, door to door evangelism, recruiting students in World Bible School and teaching the word of God.

This makes the total of 16 new born again christians within 5 months.

The attendance is improving almost every Sunday. We used to be 08-14 members on Sunday but now we are reaching 70 sometimes 80 and above.

Due to that, I decided to appoint some elders who can help to lead the church. I started teaching lessons on eldership in January last year, and finished my lessons on 3rd December. The following people are suggested elders:

1. Bro muma Eliko
2. Brother Mulenga victor
3. Brother chinook mulenga
4. Brother Benson Njlobvu
5. Brother mwenya Boston

We decided to give one month for observation period to everyone.

For this reason therefore, you are invited to come and help in ordaining them. Date will be sent any time. And this will help the mission at large to have the clear picture of the church and the way we are working.

Apart from that, from 2018 to date, we managed to plant 4 churches

1. Mapoma church of christ
2. Tukuta church of Christ
3. Lwitikila church of christ and
4. Luchembe church of christ

In addition, I participate in leading songs in the worship as well as preaching. Not only that but also recruiting students in World Bible School correspondence courses.

Muchinga province at large is in need of Bemba bibles and song books. This bibles and song books will be using for church planting movement.

We are facing many challenges in new planted churches in terms of the above materials.

More evangelists (missionary teachers) are needed especially matured preachers.

Your positive response on the needed things and preachers will highly appreciated.
