

THE HAVEN AUGUST NEWSLETTER

Brian

Thank you for your continued donations towards Brian's upcoming surgery. You all have been very generous and so uplifting with your words of encouragement.

Brian's headaches, seizures and other symptoms are getting worse. We have contacted his surgeons in South Africa to finalize a date. They are looking at the end of September or beginning of October. I will keep you posted when we lock down a date.

Please help us reach our goal of \$60,000.00. We are currently at \$11,190 and still have a long ways to go and a short amount of time. Any amount will go a long way!

Please donate for this life-saving surgery at the GoFundMe I or The Zambia Mission Fund (ZMF).

Welcoming New Babies!

The Haven took in 4 new infants this last month. A set of twins, boy and girl, a boy who is also a twin, but the family kept girl, and a very smiley little girl. We currently have 25 babies and 8 children from age 9-16 at the Haven homes. Eric's house has 15 boys / young adults. This brings us to 48 children in the care of The Haven Child Care Homes.

Our Annual West Reach Medical Mission

This year our number of volunteers went up from 80 -100! We had a very successful trip seeing over 4,093 people for medical and spiritual needs. Thank you to all that pray and support this ministry every year. Westreach has been going strong since 1999.

Facing load shedding together

The minister for energy here in Zambia has just announced this past week that load shedding is increasing to 17 hours off everyday effective immediately.

They predict that come October we may not have any power at all until our next rainy season.

Please join the nation in praying for a fruitful rainy season.

Blessings,

The Haven Team
